

MAINA SIMON GITHUO

Tel: +254 791 605 828 | Email: simongithuo73@gmail.com

Professional Summary

Results-driven IT and full-stack development professional with over 3 years of progressive experience in IT support, system administration, and full-stack web application development. Proven expertise in managing hardware, software, networks, cloud infrastructure, and Microsoft 365 environments, coupled with strong proficiency in Django, React/Next.js, PostgreSQL, MongoDB, and Docker. Adept at implementing secure, scalable, and user-centric technology solutions, contributing to HRMS and business system deployments, and optimizing digital operations for enhanced productivity. Recognized for strong problem-solving, collaboration, communication, and training skills, with a track record of liaising effectively with cross-functional teams, stakeholders, and end-users to deliver projects that align with business objectives. Passionate about leveraging technology to drive innovation, efficiency, and seamless user experiences.

Area of Expertise

Hardware Maintenance | Network Administration | HRMS Support | Deployment Preparation | Email Management | Meeting Support | Microsoft 365 Coordination | Security Management | Endpoint Monitoring | Cloud Administration | Business Central Management | IT Support & Troubleshooting | Hardware & Software Installation | LAN/WAN Networking | ICT Asset Management | Cloud Services Administration | System Implementation Support | Project & Task Management (Microsoft Planner) | UI/UX Design Collaboration (Figma) | Frontend Development Support (React & CSS) | Website Deployment & Hosting (Netlify, cPanel) | IT Documentation & Cost Analysis | Website Maintenance & Revamps | Technical Problem Solving | User Support & Training | Full Stack Web Development | Django Backend Development | React & Next.js Frontend Engineering | RESTful API Design & Integration | Database Architecture (PostgreSQL & MongoDB) | Authentication & Authorization Systems | Responsive UI/UX Design | Tailwind CSS | Docker & Containerization | CI/CD Pipelines | Git Version Control | Payment Gateway Integration (MPESA Daraja API) | Geolocation Services | Performance Optimization | Application Security | Microsoft Azure | Graphic Design | MS Suite

Academic Qualifications

Bachelor of Science in Computer Science | Kirinyaga University | 2021

Kenya Certificate of Secondary Education (KCSE) | Kiambuthia Secondary School | 2016

Work Experience

Microhouse Technologies Limited
IT Support Specialist

01/2024 – 10/2025

Provided IT support, managed systems and networks, and implemented secure, efficient, and user-focused technology solutions that enhance organizational productivity and operational continuity.

Hardware Maintenance

- Installed, configured, and maintained computer hardware and software, ensuring optimal system performance, reliability, and minimal downtime across the organization.
- Diagnosed, troubleshooted, and resolved complex system errors and failures, providing guidance and training to staff on best practices for IT tool usage.

Network Administration

- Installed, configured, and maintained LAN/WAN networking systems, ensuring seamless communication and connectivity across multiple departments.
- Oversaw network setup documentation, resolved connectivity issues promptly, and optimized network performance to support business operations.

HRMS Support

- Collected, analyzed, and documented end-user requirements for HRMS enhancements, acting as a liaison between stakeholders and the development team to ensure accurate system specifications.

- Conducted system testing, reported functional gaps, and validated solutions to guarantee alignment with end-user needs and organizational objectives.

Deployment Preparation

- Prepared, configured, and managed server environments for HRMS system deployment, ensuring stability, security, and readiness for operational use.
- Assisted in virtual machine provisioning, Azure cloud resource setup, and deployment workflows to support scalable system rollouts.

Email Management

- Led email migration processes between providers, ensuring continuity of communication, data integrity, and minimal service disruption.
- Provided remote support using AnyDesk for configuration, troubleshooting, and user guidance on email systems.

Meeting Support

- Coordinated and set up online board meetings, ensuring smooth execution of virtual sessions and proper technical support.
- Provided staff training and technical guidance on online meeting tools, improving efficiency and reducing disruptions during virtual collaborations.

Microsoft 365 Management

- Managed Microsoft 365 Business Apps licenses, installations, activation, troubleshooting, and user support to maximize organizational productivity.
- Delivered training on Microsoft 365 applications, promoting best practices and enhancing user adoption and efficiency across departments.

Security Management

- Implemented and managed security controls, including Multi-Factor Authentication, Role-Based Access, and Identity & Access Management via Azure Active Directory, to safeguard organizational resources.
- Monitored user activity audit trails and ensured compliance with security policies using Azure Active Directory and Microsoft Entra ID.

Endpoint Monitoring

- Monitored and managed endpoints using Microsoft Intune, overseeing mobile device management, endpoint onboarding/offboarding, and compliance enforcement.
- Ensured secure device configurations, tracked device activity, and provided technical support for endpoint issues.

Cloud Administration

- Monitored Azure cloud resources, tracked usage and costs, and deployed virtual machines to support scalable cloud infrastructure.
- Raised, tracked, and coordinated support tickets with Microsoft for cloud service issues, ensuring minimal disruption to operations.

Business Central

- Documented and analyzed user requirements for Microsoft Business Central, supporting smooth implementation aligned with business processes.
- Configured deployment environments, assisted in system setup, and validated implementation to ensure successful adoption and operational readiness.

Microhouse Technologies Limited

09/2023 – 12/2023

IT Support Intern

Supported and enhanced organizational IT operations by providing reliable technical support, contributing to system implementations, and assisting in the development and maintenance of user-friendly digital solutions.

- Provided technical support for the installation, configuration, and maintenance of computer hardware, software applications, and LAN/WAN networking systems, ensuring minimal downtime and smooth operations.
- Developed and maintained structured templates for tracking ICT assets and cloud service subscriptions, improving inventory accuracy and accountability.
- Maintained comprehensive IT cost analysis documentation, supporting management decision-making through clear visibility of departmental technology expenses.
- Participated in the HRMS system inception phase, contributing to requirements gathering workshops and supporting the documentation of functional and technical needs.
- Coordinated and tracked implementation team tasks and milestones using Microsoft Planner, enhancing project organization and delivery timelines.
- Collaborated with UI/UX designers to design user-friendly and responsive web interfaces using Figma for websites and web-based applications.
- Worked alongside developers to code and integrate web components using React and CSS, ensuring alignment with approved UI designs.
- Supported the hosting and deployment of web applications on platforms such as Netlify and cPanel, ensuring accessibility and operational stability.
- Assisted in company website revamping, updates, and ongoing management, contributing to improved functionality, performance, and user experience.

Freelance (Part – Time) Full Stack Developer

01/2023 – Present

Designed, developed, and maintained secure, scalable, and user-centric full-stack web applications that translated business requirements into reliable, high-performance digital solutions.

- Designed, developed, and deployed scalable full-stack web applications using Django for backend services and Next.js/React for frontend interfaces, integrating RESTful APIs and secure authentication mechanisms.
- Built and styled modern, responsive user interfaces and dashboards using Tailwind CSS, delivering consistent and intuitive user experiences across multiple devices and screen sizes.
- Engineered and optimized backend architectures utilizing PostgreSQL and MongoDB, improving data integrity, query performance, and application scalability.
- Containerized applications with Docker, enabling efficient deployment workflows and ensuring environment consistency across development, testing, and production stages.
- Implemented advanced application features, including geolocation services and payment gateway integrations (e.g., MPESA Daraja API), to enhance functionality and regional relevance.
- Managed source code using GitHub, maintaining clear documentation, version control practices, and automated CI/CD pipelines to support collaborative development and reliable releases.
- Conducted system testing, debugging, and performance tuning to identify and resolve application issues, ensuring high availability, reliability, and optimal load handling.
- Collaborated closely with cross-functional teams, including designers, product managers, and stakeholders, to translate business requirements into scalable technical solutions.
- Implemented security best practices across applications, including role-based access control, data validation, and protection against common vulnerabilities such as SQL injection and cross-site scripting (XSS).

Other Positions Held:

- **Computer Studies Teacher** | Kiawambogo Mixed Secondary School | 02/2023 – 03/2023
- **Computer Trainer and Graphic Designer** | Linkworld Inc. and info Systems | 01/2022 – 06/2023
- **Attaché** | Kiru Tea Factory Company Limited | 09/2021 – 11/2021

Notable Trainings & Certifications

Simon Maina CV

- Microsoft 365 Fundamentals Certificate | Microsoft Learn | 2024
- Microsoft Dynamics 365 Business Central: The Ultimate Beginners Guide Certificate | Udemy | 2024
- Google Digital Skills Certificate
- Computer Simple Steps Intel Certification
